From Forty-Five to Fifty Are Much Benefited

Lydia F. Pinkham's Vegetable Compound.

The "change of life" is a most critical period in a woman's existence, and the anxiety felt by women as it draws near is not without reason.

When her system is in a deranged condition, she may be predisposed to apoplexy, or congestion of some organ. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the cars, "july hadon of the" heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dirriness, are promptly heeded by intelligent women who are approaching the period in life when, woman's great change may be expected.

These symptoms are calls from nature for help. The nerves are crying out for assistance and the cry should be heeded in time.

Compound is prepared to meet the needs of women's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many ... omen extely through this crisis.

ONE CASE OUT OF MANY TO PROVE OUR CLAIMS.

St. Anne, Ill.-"I was passing through the change of life and I was a perfect wreck from female troubles. I had a displacement and bearing down pains, weak fainting spells, dizziness, then numb and cold feelings. Sometimes my feet and limbs were swollen. I was irregular and had so much backache and headache, was nervous, irritable and was despondent. Sometimes my appetite was good but more often it was not. My kidneys troubled me at times and I could walk only a short distance. * T saw your adventisement in a

paper and took Lydia E. Pinkham's Vegetable Compound, and I was belied from the first. At the end of two months the swel-Lydia E. Pinkham's Vegetable ling had gone down, I was relieved of pain, and could walk with ease. I continued with the medicine and now I do almost all my housework. I know your medicine has saved me from the grave and I am willing for you to publish anything I write to you, for the good of others."—Mrs. ESTRILLA GILLISPIE R.F.D. No. 4 Box 34, St. Anne, Illinois.

World's Commerce.

it must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain to universal acceptance. However loudly heralded, they may not hope for world-wide preeminence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting and enjoying the choicest products. Their commendation, consequently, becomes important to others, since to meet the requirements of the well informed of all countries the methods of manufacture must be of the most perfect order and the combination the most excellent of its kind. After thirty years of general usage. Syrup of Figs and Elixir of Senna is everywhire accepted as the best of family laxatives. Its quality is due not only to the excellence of the laxative and carminative principles of plants known to act most beneficially on the system, but also to the method of manufacture of the California Fig. Syrup Co., which ensures that uniformity and purity essential in a remedy a conded for family use. It cleanses and sweetens the system effectually, when a laxative is needed, without any unplessant after effects. To get the beneficial effects of Syrup of Figs and Elixir of Senna, buy of your drugg st the genuine only, the full name of the Company Canfornia Fig Syrup Co.-printed on the front of earry package, one

THURSDAY, PEBREARY 29, 1912.

THE STEEL MAKERS OF PUEBLO

*SOCIOLOGY has borrowed the word "survey" from engineering. In 1907 a large number of experts in economics and sociology made a thorough study or all the conditions surrounding workers in the homes and shops of Pittsburgh. This study was called "The Pittsburgh Survey." Just as a topographical survey of a city determines lines of equal elevation and locates the important features of the landscape, so an economic survey of a city determines the various economic devels of its inhabstants and describes its important industries.

In The Survey for February, 1912, there is an instructive study of the steel industry in Pueblo. The author, John A. Fitch, has made a thorough study of the steel industry in the United States so his conclusions are worth our serious consideration. He says:

"It remee with a shock of emprise to the exstern traveler to find a modern steel plant out in the desert a thousand miles beyond the last important colling mill of the United States Steel Corporation. Thirty-sty hundred men were there last spring on the payrell of the Colorado Fuel and Iron Company, and in boom times as many as 5,000 are semetimes employed."

The most fundamental elements in determining the economic well-being of any class of workmen are wages and hours of labor. Mr. Fitch describes these elements in Pueblo as follows:

"Conusion labor which constitutes 60 to 65 per cent of the payroli in the Pueblo mills and furnaces, gets is cents an hour. This is half a cent less than the United States Steel Corpora tion pays in Pittsburgh and 2 cents more than it pays in Birmfigham. It is questionable whether the general cost of living is jess in Pueblo than in the eastern mill towns.

other steel centers. The customary work-day is twelve hours to length for all manufacturing **ቦ**ኛው፤ የደደሰ8

"I feel safe to estimating the total number of seven-day workers at 1,200 at the time of my visit last April, and that was one-third of the ray roll 🚣

DANGERS IN PUFBLO STEFT MILLS

But there is another element that may affect the well-being of a labores, and his family even more than wages and

hours of labor. That element is liability to industrial accident. In spite of the strict law passed by the Colorado Legislature of 1900 to compel employers to protect their dangerous machinery. Mr. Fitch says that he "found at Pueblo a steel plant to all appearances more dangerous than any other large steel plant that I have ever seen. Conditions in the Colorado Fuel and Iron Company's rail mill are described as fol-

"At Pueblo I walked through the rad wall and found it in such a state of confusion that I thought some work if reconstruction must be in progress. The mili floor alongside the roll. tables was cough and uneven. Mill paraphernalia were scattered here and there. I asked a workman if changes were in progress. "No," he replied, this is the way abs at-

The statistics of accidental deaths in the Pueblo mills are a sequel to the disorder

"In IPIN the Pueblo is the and the member killed nest compaled that of South Chicago, although two and one-half to three times as many men were employed at South Chicago.

Mr. Fitch's account of the splendid work of the Colorado Fuel and Iron Company in establishing and carrying on its hospital service, in supplying equipment and training men to rescue miners, and in maintaining libraries and lecturers is in striking contrast to his account of the general conditions under which the laborers do

The Colorado Fuel and Iron Company is strongly opposed to the organization of unions among its employes. Undoubtedly the following statements are related as cause and effect:

"Never, at any time in its history has the C_lorado Fuel and Iron Company been anything but harille to organized labor."

"And a workman said to me: "We twalte**bour men don't think-any more. All we know ta**

"All with whom I talked expressed much ms IV faction with the tours of labor, and many

Mr. Fitch's investigate of the Men-Who Make Steel in Pueblo has discovered. deplorable laboring conditions, which the exitably lead to accident. The responsebility for remediang such as a trans is uponcar state i migrale. Mr. Effect suggests that there is a way to reme, a uch abuses

There is a sure consider for the state of trains that exists take in southers, toluman-We sail of government by the people. The people the fit hands are beginning to sentir them art of Soro day they will fully awake.

SOCIALISM

THE numerous letters that have appeared in the Open Parliament testify to the wide pread I call prefest by socialism. Such questions as the tollowing have been asked. What is socialism?. Will socialism do away with private property? Will it not destroy individual mitiative. Is givernment ownership and operation of the postoffice socialistic! Di socialists desite to introduce their reforms gradually or at one stroke? What is meant by "class" struggle, " "class consciousness," "exploitation" and "economic interpretation of history!" Do socialists advocate the use of force in overthrowing the present order? When they speak of the "social revolution" do they prophesy a cataclysmic change? Do socialists expect to level the present inequalities between individuals by their scheme of reform?

These questions are important and farreaching and to attempt to answer them. completely would force one to consider the fundamentals of economics, politics and ethics. It would require one to consider suggested innovations which, it adopted, would affect the material interests and daily life of everyone. To answer the foregoing questions to the satisfaction of those seeking information would be exceedingly. difficult; to answer them to the satisfaction of the various types, of socialists extant would be impossible. Nevertheless, The Cazette has decided to discuss the various questions relating to socialism and the social movement. A number of editorials will be published from time to time dealing with different phases of the question.

"The editorials contemplated will be purely expository in character. The history of socialism will be outlined, the progress of the movement will be noted; the different brands of socialists will-be pointed out; the important concepts will be defined; and concrete socialistic proposals will he described.

Our object in giving space to this subject is to remove the general haziness that envelopes the subject. The arrogant attitude of the man who holds that all things destructive of society are comprised in the word "socialism" is just as unwarranted as the equally arrogant attitude of the intolerant specialistic critic of the existing order. Our object is to get at the real meaning of the socialist movement by consulting its authoritative supporters and opponents.

THE MILKMAN'S HOURS. To the Edwar of The Gazette:

As his employed I wish to express my views on the Bunday ordinance being discussed. I work seven days a week 30 days a month and 365 days a year, have to work in stamy weather, Sundays and bolidays, whether sick or well confess in case of severe sickness; I would be worth more to my employer if I had one day off each week. I could give better satisfaction to him and his business with one or a rest cach week. If I could be at home one out each week my wife would know she had a husbubl, to shildren would know they had a father.

Arrangements are made where horses have to work seven days a week to have one day off. Is a herse better than a buman being this the life of a dumb bride worth more to an enodoser than the ife of his employed

As a laborer I wan to sa that the employes r the its that have to work seven days i week are in favor of the ordinance if it is strictly enforced, but are not to favor of it if we have to take а тефистиот и максе ак кооп ок (г на развей, на inder the present committions of high prices of Hying we are making only a moderate living now, Y MILKWYN Colorado Springe Feb 24

Physicians tell us that 65 per cent of the children in the public schools of Boston are physically defecive. The trained nurses who attend the pupils have. performed good sem be in correcting temporary defects. Now it is proposed seriously to not only feed the hunger, but to furnish medicated eaths for children suffering from skir troubles. It is also rged that more attention should be paid to school Binn's by teachers and narents coop tating for short purpose. A wise medical suggestion is made that there should be less competitive work in the schools and that the pupils should be relieved of some studies, home lessons abolished and children promoted or graduated with more regard to their actual mental caracity as shown by their daily efforts.

THE TIP THAT GRINDS

From the Buffalo Evening Timea.

Tipping is a custom about which there will always he more than one opinion. If averybody were so flerrely "down" on tipping as many people profess to be, the public would quickly put a stop to the habit.

But a kind of tipping which combines all the had qualities of the usage, without any of the exses that plead for it has lately been before the courts in Chicago, " Into its the so-called "tip con-

emion acheme, which supplies area hotels, etc., with attendance whose un forms contain no pockers. The tipe will be these give nescones esther turn over in their employers

and Fred, young, beedless, comeal. Sying in this reckiess town of New York, may laugh sometimes that so often follow. Chamberlain's at old things like the law and reliaion when they say 'thou shalt not.' We 'may think that phrase as written for old fogies. And we may snew at the wages of sin is death.' But my friend, there omes to all of us sometimes the knowledge that he law and religion are right. WHAT THEY SAY WE SHALL NOT DO THAT WE CANNOT DO WITHOUT SUFFERING. I have learned that, Alice have learned that the wages of sin is death. It's orse than death-it's a hell on earth." Louise Suydam was the wife of Walter Lis-

. with Frederick applied Mr. Noble. After think to tranchas becomebosen, gether less than six months, less than three weeks after their marriage, these two uphappy people commuted sulthat the love (2) which causest creed by God and nature, and

not to be denied, no longer existed. The monotony and common-placeness of ordinary married life had killed this love, which was so great that they were

Probably to klow most of these facts. They vere chronoled widely enough. I am merely relatng them for these who did not chance to read bem, and recalling them for those who did-

In the words I have quoted, I think Liquise Smydam Noble proseded as powerful a sermon as any minister ever gave. For the minister tells us that the wages of sin is death, because that is what he believes. She teds us that because she knows. She had received that wages, and more than that ia bell on earth.

In an ordinary married life, where the marriage s between two people who lute each other dearly, where there is a reasonable degree of prosperity. where there are hany friends and many interests and activities to add to the happiness of both parties, there is nevertheless much stress and strain upon the affection that these two feel. There are times when the irritating little cares of married life growirksome there are does when one wears upon the other, there are moments when tempers Care up and things are said that should not be,

Now tell me, if there is all this stress and strain n normal married life where there is everything to favor happiness, abat will there he in that union. which is define conventions has thrown away standing and fromte and the box of a taufil rearanted statement with with happy officien about Kell material prosperity to hard? In every married life, the lovers' love, in which

passion is a prome element, must gradually change. The leve may become the affection of habit which one feels for anyone with about he lives. Is may cont tuto something little more than mutual suffergore. It pust degenerate into-actual dislike, it may develop into sweet and enduring friendship and tenderness which to me is the most beautiful love on earth

What chance is there for this happy sufcome in marriage the that of Louise Suydam and her affinity

Barle couldn't live with his wife be-'ause he decided they weren't mated. He broke up, his home and made his little child fatherical in go to his "affings," Julia Kutiner, waom he said was his true soul mate. In about 10 years she appeared in the divorce courts, testifying that her soul mate choked and bear her.

"But, my friend," says Louise Noble, "there comes to all of us sometimes the knowledge that the law and religion are right. WHAT THEY SAY WE SHALL NOT DO-THAT WE CANNOT DO WITH. OUT SUPPERING"

To any man or woman who is tempted to defy convention in any way and set up a higher (?) standard of morality for herself or himself, I commend these words of Louise Suydam Noble. You may not believe ministers, or friends, or

your family. You may say they are theorising. You must believe her. She knew. God help her:

Famous "Pint of Cough Syrup" Receipt

Liter W., cdy at Any Asico. Fully Guaranteed

Make a plain syrup by mixing one pint of granulated augus and by pint of warm water and atis, for two minutes. eents worth; in a pint bottle, and fill it up with the Sugar Syrup. Into gives you a family supply of the best cough syrup at a saving of \$2. It meres spoils. Take a tenspoonful every one, two or three bours.

The effectiveness of this simple remedy is susprising. It seems to take hold in-atantly, and will neurally stop the most obstenate cough in 24 hours. It tones up the jaded appetite and is just laxa-tive enough to be helpful in a cough, and has a pleasing taste. Also excellent for bronchial trouble, throat tickle, sore lunge and arthma, and an unequaled

remedy for whooping cough and croup.

This recipe for making cough remedy with Pinex and Sugar Syrup (or strained honey) is a prime favorite in thousands of homes in the United States and Canada. The plan has been imitated, though never successfully. try it, use only genuine Pinex, which is the most valuable concentrated com-pound of Norway white pine extract, and is rich in gusiacol and all the natural healing pine elements. Other prepura-tions will not work in this recipe.

A guaranty of absolute satisfaction or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, and to The Pinex Co., Ft. Wayne, Ind.

ANSWERS

HE HAS HER RING.

"Dear Miss, Libbey, l have kept company with a certain young gentleman off and on for about one year, and; about three months ago heard from a few different parties that he was married, but he claims he is not, and, of , ourse I believe him, because I don't think that he would go out with me if ne had a wife in this city.

"About five weeks ago he made a date with me to go to the show and he didn't keep it. I didn't hear from him until a week after, then I received a' letter from him saying that he couldn't have any more to do with me just now, of what girls like or need for birthday that there was a great secret that he would never tell me. In this letter he also told me that I was the only girl he cared for, and that some time in the future he hoped we could be more than friends.

"He has a ring which belongs to me," and has had it for about one month. but he doesn't seem to think that I want it back. I have written him sev? pets him. He knows the cost of just eral times asking him to send it by registered mail or otherwise, but as yet have not heard from him. I am. quite sure he is married now, as the other night I met him face to face and he was with some other gitl. He didn't speak, although he saw me. The other telling him just what I thought of him, and again asking him for my ring, but have heard nothing from him. Shall

"mother." .) series.
Toquestionably the fellow is married. Send a messenger for the ring and request that he wait until he gets it, A girl is so foolish to go about with a man of whom she knows nothing!

"GOOD, BEAUTIFUL, QUEENLY!" "Dear Miss Elbhey: I have known it day, have learned to love her futence mas time I wrote wishing her a Meary Christman and she carnied to be quite

endar, didn't she? No sense in her fair he was supposed to have, sained acting that way, so far as I can y a gound. Though a man's life be an Better ignore her foolishness and con-

No case of contagious blood poison is ever cured until the last particle match between Mahmout and Pederson fore this time of year. The events at of the virus has been removed from the circulation. The least taint left in the blood will sooner or later, cause a fresh outbreak of the trouble, with all its hideous and destructive symptoms of ulcerated mouth and throat, copper colored splotches, falling hair, sores and ulcers, etc. No other medicine so surely cures confagious blood poison as S. S. It goes down into the blood and stradily and surely drives out every particle of the infection. It absolutely and perfectly purifies the blood, and leaves this vital fluid as fresh, and health and the surely drives on the blood, and leaves this vital fluid as fresh, rich and healthy as it was before the destructive via sof contagious blood poison entered the circulation. S. S. S. quickly takes effect on the blood, and gradually the symptoms disapper, the health is improved, the sin cleared of all spots, sores and other blemishes, the hair stops coming out, the mouth and throat heal and when S. S. S. has cleansed the system of the poison no trace of the disease is left. S. S. S. cures contagious blood poison because it is the greatest of all blood purifiers tested and proven for mora than forty years. Book on this disease with suggestions for home treatment, and any medical advice and free to all who write.
